The purpose of this program is to award grants to eligible applicants to plan and conduct research, demonstration projects, training, and related activities that help to maximize the full inclusion and integration of individuals with disabilities into society and to improve the effectiveness of services authorized under the Rehabilitation Act of 1973, as amended (Act).

The final priority notice (NFP) and the notice inviting applications (NIA) were published in the Federal Register on July 15, 2005. NIDRR intends to fund one new DRRP. The maximum amount, in any year is \$750,000 and includes both direct and indirect costs.

ELIGIBLE APPLICANTS:

Parties eligible to apply for grants under this program are States, public or private agencies, including for-profit agencies, public or private organizations, including for-profit organizations, institutions of higher education, and Indian tribes and tribal organizations

IMPORTANT APPLICATION PROCEDURES

This application kit contains application information different from previous years as well as information and the required forms for potential applicants to apply and be considered for a FY 2005 grant award under the DRRP competition (including the NFP, NIA and selection criteria). Potential applicants are advised to read the materials carefully, particularly the information on the types of organizations that are eligible to apply for these grants, how to prepare an application, the dollar amount for the budget period, the protection of human subjects, and the selection criteria (Section E.) used by the reviewers to evaluate each application. The program narrative must address the selection criteria. To facilitate the peer review process, we recommend that your narrative follow the selection criteria in the order presented. Additionally, each application **should include a one-page abstract**. The abstract is a critical component of the application and should highlight the purpose, target population to be served during the project period, planned goals and objectives, innovative strategies utilized, project outcomes, and dissemination activities.

We encourage you to read Section B -- Grants.gov Submission Procedures and Tips for Applicants

You may submit your application either on paper or electronically through Grants.gov to the Department. Detailed instructions for submitting your application on paper can be found in Sections H and I.

If submitting by paper, you must either mail (postmarked), hand-deliver, or submit by carrier service [commercial carriers submit to a different address] on or before the application deadline date, to the following address: U.S. Department of Education, Application Control Center, Attention: CFDA Number 84.133A-1, **550 12th Street, SW, PCP - Room 7041**, Washington, DC 20202. The phone number for ACC to list for express mail is (202) 245-6288. For paper copy, you are required to submit an original and two copies of your application. NIDRR would appreciate your including three additional copies of your paper application to facilitate the peer review process (one original and 6 copies in all). We also recommend that the original copy of your application be secured with a binder clip in order to facilitate any additional copying that might be required.

You may also submit your application electronically through Grants.gov system. Section H has detailed instructions for submitting the application electronically. You may access the electronic grant application for the DRRP at: <http://www.grants.gov> and find under CFDA 84.133.

We are encouraging you to submit your application electronically.

SECTION B

Grants.gov Submission Procedures and Tips for Applicants

IMPORTANT PLEASE READ FIRST

Please note that the Grants.gov site works differently than the Department of Education's e-Application system. This program will be using the Grants.gov APPLY function to accept electronic applications. To facilitate your use of Grants.gov, this document includes important submission procedures you need to be aware of to ensure your application is received timely and accepted by the Department of Education.

FIND UNDER FUNDING OPPORTUNITY NUMBER ED-GRANTS-071505-001.

1) **REGISTER EARLY** – Grants.gov registration is a one-time process that takes several days to complete. You cannot submit an application until all of the Get Started steps are complete. For detailed information on the Get Started Steps, please go to:
<http://www.grants.gov/GetStarted>

2) **SUBMIT EARLY** – **We strongly recommend that you do not wait until the last day to submit your application. Grants.gov will put a date/time stamp on your application after it is fully uploaded.** The time it takes to upload an application will vary depending on a number of factors including the size of the application and the speed of your Internet connection. If you start uploading your application before 4:30 Washington, DC time on the application deadline date, and it does not finish uploading until after 4:30 pm, your application will be marked late. If that happens, please see the section below on submission problems.

3) **VERIFY SUBMISSION IS OK** – You will want to verify that Grants.gov and Education receive your Grants.gov submission timely and that it was validated successfully. To see the date/time your application was received, login to Grants.gov and click on the Check Application Status link. For a successful submission, the date/time received should be earlier than 4:30 pm on the deadline date, AND the application status should be: Validated, Received by Agency, or Agency Tracking Number Assigned.

If the date/time received is later than 4:30 pm Washington DC time on the closing date, your application is late. If your application has a status of "Received" it is still awaiting validation by Grants.gov. Once validation is complete, the status will either change to "Validated" or "Rejected with Errors". If the status is "Rejected with Errors," your application has not been received successfully. Some of the reasons Grants.gov may reject an application can be found on the Grants.gov site:

If you discover your application is late or has been rejected, please see the instructions below. Note: You will receive a series of confirmations both online and via e-mail about the status of your application. Please do not rely solely on e-mail to confirm whether your application has been received timely and validated successfully.

VI. Award Administration Information

1. Award Notices: If your application is successful, we notify your U.S. Representative and U.S. Senators and send you a Grant Award Notification (GAN). We may also notify you informally.

If your application is not evaluated or not selected for funding, we notify you.

2. Administrative and National Policy Requirements: We identify administrative and national policy requirements in the application package and reference these and other requirements in the Applicable Regulations section of this notice.

We reference the regulations outlining the terms and conditions of an award in the Applicable Regulations section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. Reporting: At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as specified by the Secretary in 34 CFR 75.118.

Note: NIDRR will provide information by letter to grantees on how and when to submit the report.

4. Performance Measures: To evaluate the overall success of its research program, NIDRR assesses the quality of its funded projects through review of grantee performance and products. Each year, NIDRR examines, through expert peer review, a portion of its grantees to determine--

- The number of tools, methods, interventions, programs, and devices, developed and/or validated with NIDRR funding, that meet the standards for review by independent scientific collaborations and registries; and

- The number of non-academic and consumer-oriented dissemination products and services, nominated by grantees to be their best outputs based on NIDRR-funded research and related activities, that demonstrate "good to excellent" utility for intended beneficiaries.

NIDRR uses information submitted by grantees as part of their Annual Performance Reports (APRs) for these reviews. NIDRR also determines, using information submitted as part of the APR, the number of publications in refereed journals that are based on NIDRR-funded research and development activities.

The Department's program performance reports, which include information on NIDRR programs, are available on the U.S. Department of Education Web site: <http://www.ed.gov/offices/OUS/PES/planning.html>

Updates on the GPRA indicators, revisions and methods appear in the NIDRR Program Review Web site:

<http://www.neweditions.net/pr/commonfiles/pmconcepts.htm>

Grantees should consult these sites, on a regular basis, to obtain details and explanations on how NIDRR programs contribute to the advancement of the Department's long-term and annual performance goals.

SUPPLEMENTARY INFORMATION:

Disability and Rehabilitation Research Projects (DRRP) Program

The purpose of the DRRP Program is to plan and conduct research, demonstration projects, training, and related activities to develop methods, procedures, and rehabilitation technology that maximize the full inclusion and integration into society, employment, independent living, family support, and economic and social self-sufficiency of individuals with disabilities, especially individuals with the most severe disabilities, and to improve the effectiveness of services authorized under the Rehabilitation Act of 1973, as amended. DRRPs carry out one or more of the following types of activities, as specified in 34 CFR 350.13 through 350.19: research, development, demonstration, training, dissemination, utilization, and technical assistance.

An applicant for assistance under this program must demonstrate in its application how it will address, in whole or in part, the needs of individuals with disabilities from minority backgrounds (34 CFR 350.40(a)). The approaches an applicant may take to meet this requirement are found in 34 CFR 350.40(b).

Under the DRRP program, we define a utilization activity as relating the research findings to practical applications in planning, policy making, program administration, and delivery of services to individuals with disabilities (34 CFR 350.17). We define a dissemination activity as the systematic distribution of information or knowledge through a variety of ways to potential users or beneficiaries (34 CFR 350.18). Analysis of Comments and Changes

We published a notice of proposed priority (NPP) for this program in the Federal Register on May 5, 2005 (70 FR 23852). Page 23853 of the NPP included a background statement that described our rationale for proposing this priority.

In response to our invitation in the NPP, one party submitted comments on the proposed priority. An analysis of the comments and our responses follows.

Generally, we do not address technical and other minor changes and suggested changes we are not authorized to make under the applicable statutory authority.

Comment: The commenter noted that research and training must be of the highest quality, relevant, and useful. The commenter suggested that the priority would not ensure access to information on whether past efforts have been successful in meeting congressional intent or information that would enable people with disabilities, their families, and professionals to make recommendations for improving outcomes for persons with disabilities.

Discussion: The priority is intended to ensure that NIDRR constituencies will have ready access to high-quality, research-based information that has the potential to improve the lives of individuals with disabilities. NIDRR proposes to accomplish this through such means as facilitating evidence-based systematic reviews of disability and rehabilitation research and promoting the development and use of effective strategies for disseminating information to diverse populations.

Changes: None.

Comment: The commenter opposed the focus and implementation of this priority and stated that it will not support the NFI and that it is inconsistent with NIDRR's Long-range Plan.

Discussion: The project to be supported under this priority, along with several others, advances the goals of the NFI by helping to ensure that individuals with disabilities have access to research that meets high standards and has the potential for improving their lives. The project implements the Long-range Plan by ensuring that information disseminated is of high quality and is based on scientifically rigorous research and development.

Changes: None.

Comment: The commenter stated that, by focusing only on NIDRR research information, the priority will not provide information needed by people with disabilities.

Discussion: The priority does not limit applicants to focus only on NIDRR research in their research syntheses and related activities. Applicants may propose to expand their research synthesis and related activities to include other sources of information and the peer review process will evaluate the merits of each proposal.

Changes: None.

Comment: The commenter urged NIDRR to revise the scope of the priority to focus generically on research and dissemination from all publicly-funded sources and to include scanning and reporting of this research.

Discussion: The priority does not limit applicants to including only NIDRR research in their research syntheses and related activities. Scanning journal articles and negotiating permission to place them on a Web site is beyond the scope of this priority. Applicants may propose to expand their research synthesis and related activities to include other sources of information and the peer review process will evaluate the merits of each proposal.

Changes: None.

Comment: The commenter stated that the NCDDR will operate a Web site that is not readily accessible to people with intellectual disabilities.

Discussion: NIDRR agrees that Web site accessibility for people with intellectual disabilities is important. The priority does not limit applicants to addressing any particular type of accessibility. Applicants may propose to disseminate information in other accessible formats and the peer review process will evaluate the merits of each proposal.

Change: None.

Note: This notice does not solicit applications. In any year in which we choose to use this priority, we invite applications through a notice in the Federal Register. When inviting applications we designate the priority as absolute, competitive preference, or invitational. The effect of each type of priority follows:

Absolute priority: Under an absolute priority, we consider only applications that meet the priority (34 CFR 75.105(c)(3)).

Competitive preference priority: Under a competitive preference priority, we give competitive preference to an application by either (1) awarding additional points, depending on how well or the extent to which the application meets the competitive preference priority (34 CFR 75.105(c)(2)(i)); or (2) selecting an application that meets the competitive preference priority over an application of comparable merit that does not meet the priority (34 CFR 75.105(c)(2)(ii)).

Invitational priority: Under an invitational priority, we are particularly interested in applications that meet the invitational priority. However, we do not give an application that meets the invitational priority a competitive or absolute preference over other applications (34 CFR 75.105(c)(1)).

Note: NIDRR supports the goals of President Bush's New Freedom Initiative (NFI). The NFI can be accessed on the Internet at the following site:

<http://www.whitehouse.gov/infocus/newfreedom/>

This final priority is in concert with NIDRR's 1999-2003 Long-Range Plan (Plan). The Plan is comprehensive and integrates many issues relating to disability and rehabilitation research topics. While applicants will find many sections throughout the Plan that support potential research and dissemination to be conducted under the proposed priority, a specific reference is included for the priority presented in this notice. The Plan can be accessed on the Internet at the following site:

<http://www.ed.gov/rschstat/research/pubs/index.html>

Through the implementation of the NFI and the Plan, NIDRR seeks to: (1) improve the quality and utility of disability and rehabilitation research; (2) foster an exchange of expertise, information, and training to facilitate the advancement of knowledge and understanding of the unique needs of traditionally underserved populations; (3) determine best strategies and programs to improve rehabilitation outcomes for underserved populations; (4) identify research gaps; (5) identify mechanisms of integrating research and practice; and (6) disseminate findings. D-5

Priority

The Assistant Secretary for Special Education and Rehabilitative Services intends to fund a National Center for the Dissemination of Disability Research to serve as a lead center in the area of Knowledge Translation/Knowledge Dissemination and Utilization. This center will ensure that NIDRR constituencies have ready access to high-quality, research-based information that has the potential to improve the lives of individuals with disabilities. The reference to this priority may be found in the Plan, Chapter 8, Knowledge Dissemination. The center must--

- 1) Identify standards, guidelines, and methods appropriate for developing evidence-based systematic reviews of disability and rehabilitation research;
- 2) Serve as a technical assistance resource to NIDRR grantees to ensure that research studies will meet standards for inclusion in evidence-based systematic reviews;
- 3) Develop partnerships with existing collaborations and registries to identify gaps and opportunities and to facilitate the systematic review of disability and rehabilitation research;
- 4) Identify and promote the use of evidence-based reviews in topic areas developed in collaboration with NIDRR and its grantees;
- 5) Identify, develop, and assess the effectiveness of strategies for dissemination of high quality information to diverse target populations; and
- 6) Serve as a technical assistance resource to NIDRR grantees to ensure the use of effective strategies for dissemination of high quality information to diverse target populations.

Executive Order 12866

This notice of final priority (NFP) has been reviewed in accordance with Executive Order 12866. Under the terms of the order, we have assessed the potential costs and benefits of this regulatory action.

The potential costs associated with the NFP are those resulting from statutory requirements and those we have determined as necessary for administering this program effectively and efficiently.

In assessing the potential costs and benefits -- both quantitative and qualitative -- of this NFP, we have determined that the benefits of the final priority justify the costs.

SECTION E

Background Statement

With this priority, NIDRR plans to fund a National Center for the Dissemination of Disability Research (NCDDR) to serve as the cornerstone for Knowledge Dissemination and Utilization (KDU) and Knowledge Translation (KT) efforts. KDU projects ensure widespread distribution, in usable formats, of practical scientific and technological information generated by research, development, and demonstration projects. KT projects encompass the exchange, synthesis, and ethically sound application of knowledge within a complex system of relationships among researchers and users. (<http://www.cihir-irsc.gc.ca/e/7518.html>) NIDRR expects KT concepts and activities to increasingly shape the effective dissemination and utilization of disability and rehabilitation research results critical to achieving NIDRR's mission.

Research findings can improve the quality of life of people with disabilities and further their full inclusion into society. These benefits are feasible only if the findings and technologies are available to, known by, and accessible to potential users.

NIDRR is particularly interested in ensuring that information to be disseminated is of high quality and is based on scientifically rigorous research and development. Potential users need to be able to assess the quality of research and development findings and products and the relevance of these findings and products to their particular needs. End-users with limited scientific training, in particular, may need assistance in order to understand competing research claims or to determine the relevance of particular findings to their individual situations. In addition, given the nature of scientific study, practical information often is based on cumulative knowledge, not upon the results of any one study. We encourage potential applicants, when identifying standards and procedures for systematic review of evidence, to examine the work of such organizations as the Campbell Collaboration (<http://www.campbellcollaboration.org/>), the Cochrane Collaboration (<http://www.cochrane.org/>), and the Department of Education What Works Clearinghouse (<http://www.w-w-c.org/>).

NIDRR supports a variety of projects designed to help channel the flow of knowledge gained from rehabilitation research to specific uses. The National Rehabilitation Information Center (NARIC) serves as a clearinghouse or gateway to disability and rehabilitation oriented information organized in a variety of formats for the public, researchers, and NIDRR. NARIC provides interactive information to users through online publications, searchable databases, and timely reference and referral data. ABLEDATA provides information on assistive technology products and rehabilitation equipment available from domestic and international sources. Other NIDRR projects, including Rehabilitation Research and Training Centers, Rehabilitation Engineering Research Centers, Model Burn Injury, Spinal Cord Injury, and Traumatic Brain Injury Systems, and Disability and Rehabilitation Research Projects provide information on a wide range of topics for specific target populations.

NIDRR funds more than 300 centers and projects annually. The NCDDR will serve as the nexus between NIDRR and its grantees. Key activities will include identifying standards and criteria for conducting research syntheses and to guide the dissemination of research and development information and findings; developing partnerships and collaborating with key constituencies and with groups conducting similar work; identifying effective dissemination strategies; and serving as a resource for NIDRR grantees. As the lead project for NIDRR KDU and KT activities, the Center will provide technical assistance to grantees to help them plan and carry out dissemination activities that meet high standards and to help NIDRR move the results of research to the utilization stage. The center will help NIDRR projects prepare, maintain, and communicate evidence-based reports and syntheses in topic areas identified in conjunction with NIDRR.

This project will work closely with NIDRR through a cooperative agreement.

SECTION G

Protection of Human Subjects

Research activities involving human subjects supported by awards under these programs are subject to Department of Education Regulations for the Protection of Human Subjects.

If you are applying on Grants.gov there is a separate place to include exempt and non-exempt narratives.

Applicants answering "Yes" to item 3 on form ED Supplemental to the SF 424 on Grants.gov or item 12 on form ED 424 whose research activities are nonexempt must complete the seven point narrative on protection of human subjects. Additionally, seven point narratives are required for each participating partner if research is being conducted at other sites.

Copies of the Department of Education regulations for the Protection of Human Subjects are available from the Grants Policy and Oversight Staff (GPOS), Office of the Chief Financial Officer, Washington, D.C., telephone: (202) 245-6154 and on the Protection of Human Subjects in research Web Site at:

<http://www.ed.gov/policy/fund/reg/humansub/part97.html>

SECTION G

FREQUENTLY ASKED QUESTIONS & POINTS TO REMEMBER IN APPLICATION PREPARATION

1. CAN I GET AN EXTENSION OF THE DUE DATE?

No. On rare occasions the Department of Education may extend a closing date for all applicants. If that occurs, a notice of the revised due date is published in the Federal Register. However, there are no extensions or exceptions to the due date made for individual applicants.

2. WHAT SHOULD BE INCLUDED IN THE APPLICATION?

The application should include: a project narrative, vitae of key personnel, and a budget, as well as the required forms included in this package. Vitae of staff or consultants should include the individual's title and role in the proposed project, and other information that is specifically pertinent to this proposed project. The budgets for both the first year and all subsequent project years should be included.

If collaboration with another organization is involved in the proposed activity(s), the application should include assurances of participation by the other party(s), including written agreements or assurances of cooperation. It is not useful to include general letters of support or endorsement in the application.

If the applicant proposes to use unique tests or other measurement instruments that are not widely known in the field, it would be helpful to include the instrument in the application.

Many applications contain voluminous appendices that are not helpful and in many cases cannot even be mailed to the reviewers. It is generally not helpful to include such things as brochures, general capability statements of collaborating organizations, maps, copies of publications, or descriptions of other projects completed by the applicant.

3. WHAT FORMAT SHOULD BE USED FOR THE APPLICATION?

NIDRR generally advises applicants that they may organize the application to follow the selection criteria that will be used to evaluate the proposal. The specific review criteria vary according to the specific program, and are contained in this Application Package.

4. MAY I SUBMIT APPLICATIONS TO MORE THAN ONE NIDRR PROGRAM COMPETITION OR MORE THAN ONE APPLICATION TO A PROGRAM?

Yes, you may submit applications to any program for which they are responsive to the program/priority requirements. You may submit the same application to as many competitions as you believe appropriate. You may also submit more than one application in any given competition.

5. WHAT IS THE ALLOWABLE INDIRECT COST RATE?

The limits on indirect costs vary according to the program and the type of application. An applicant for an Rehabilitation Research Training Center (84.133B) is limited to an indirect rate of 15%. An applicant for Advanced Rehabilitation Research Training (84.133P) project is limited to a training grant indirect rate of 8%.

An applicant for a Rehabilitation Engineering Research Center (84.133E), Disability Rehabilitation Research Project (84.133A), or Field Initiated (84.133G) project should limit indirect charges to the organization's approved indirect cost rate. If the organization does not have an approved indirect cost rate, the application should include an estimated actual rate. The Research Fellowship (84.133F) program does not use indirect cost rates.

6. CAN PROFITMAKING BUSINESSES APPLY FOR GRANTS?

Yes. However, for-profit organizations will not be able to collect a fee or profit on the grant, and in some programs will be required to share in the costs of the project.

7. CAN INDIVIDUALS APPLY FOR GRANTS?

Only organizations are eligible to apply for grants under most of the NIDRR programs. Individuals, however, are the only entities eligible to apply for the Research Fellowship (84.133F) program.

8. CAN NIDRR STAFF ADVISE ME WHETHER MY PROJECT IS OF INTEREST TO NIDRR OR LIKELY TO BE FUNDED?

No. NIDRR staff can only advise you of the requirements of the program in which you propose to submit your application. NIDRR staff cannot advise you of whether your subject area or proposed approach is likely to receive approval.

9. HOW DO I ASSURE THAT MY APPLICATION WILL BE REFERRED TO THE MOST APPROPRIATE PANEL FOR REVIEW?

Applicants can assure that their applications are referred to the correct competition by clearly indicating the competition title and CFDA number, including alphabetical code, on the Standard Form 424. The project title should describe the project and reflect the priority topic.

10. HOW SOON AFTER SUBMITTING MY APPLICATION CAN I FIND OUT IF IT WILL BE FUNDED?

The time from closing date to grant award date varies from program to program. Generally speaking, NIDRR endeavors to have awards made within five to six months of the closing date. Unsuccessful applicants generally will be notified within that time frame as well. For the purpose of estimating a project start date, the applicant should estimate approximately six months from the closing date, but no later than following September 30.

11. CAN I CALL NIDRR TO FIND OUT IF MY APPLICATION IS BEING FUNDED?

No. When NIDRR is able to release information on the status of grant applications, it will notify applicants by letter. The results of the peer review cannot be released except through this formal notification.

12. IF MY APPLICATION IS SUCCESSFUL, CAN I ASSUME I WILL GET THE REQUESTED BUDGET AMOUNT IN SUBSEQUENT YEARS?

No. Funding in subsequent years is subject to availability of funds and successful project performance.

13. WILL ALL APPROVED APPLICATIONS BE FUNDED?

No. It often happens that the peer review panels approve for funding more applications than NIDRR can fund within available resources. Applicants who are approved, but not funded, are encouraged to consider submitting similar applications in future competitions.

14. HOW WILL NIDRR ASSESS THE PERFORMANCE OF FUNDED GRANTS?

A number of methods will be utilized to assess the performance of NIDRR funded grants. These methods include triangulation of data, expert panels, expert peer reviewers and formative and summative reviews. NIDRR also utilizes an annual project performance reporting web-based system (APPR) to collect information from grantees in order to determine whether continuation grants should be awarded beyond the base year. This is the form that incorporates the elements of NIDRR's GPRA indicators, applying outcomes-based requirements.

15. WILL ALL PERFORMANCE MEASURES BE APPLICABLE TO MY GRANT?

No. Applicants should consult the following web sites to obtain details and explanations as to which performance measures will be applicable to your particular application. To learn what NIDRR's 2004 performance goals, measures, targets, and timeframes are, visit:

<http://www.ed.gov/about/reports/annual/2004plan/edlite-nidrr.html>

POINTS TO REMEMBER IN APPLICATION PREPARATION

Forms

ED 424 (If applying by paper)

1. **CFDA Number**: In the title block of #4 on the 424 form, please note the appropriate CFDA 84.133A-1 and topic title.
2. **DUNS number**: It is important to verify with your fiscal office the DUNS number, which goes in Block #2 on the ED 424 form. If you do not have one, call 1-800-333-0505 to set one up. This number is required.
3. **EO 12372**: Mark Block #11, the EO 12372 as no and not covered. This program is not covered.
4. **Block #6 – novice applicant**. Please leave this one blank. Does not apply to NIDRR programs.
5. **Block # 15a** : The total amount requested includes both direct and indirect costs for the first year only. The totals on the ED 524 form must include direct and indirect costs and no year can be over the maximum amount.

SF 424 and ED Supplemental (If applying through Grants.gov)

6. **Legal Name**: Block #5 is for the name of institution or entity. **Please note** the CFDA. 84.133, DRRP will automatically populate on Block #10 of the SF 424.
7. **Project Director**: Project director information is on the ED supplemental form in Block #1.
8. **Novice applicant**. Block #2 on the ED Supplemental - Please leave this one blank. Does not apply to NIDRR programs
9. **Block #15a**: The total amount requested includes both direct and indirect costs for the first year only. The totals on the ED 524 form must include direct and indirect costs and no year can be over the maximum amount.
10. **Human Subjects**: Block #3 on the ED Supplemental.

ED 424 and ED 524

11. Budget Information: **BE SURE TO CHECK THE MATH** – the application will not be reviewed if the request for funds on block 15a of either the ED 424 or SF 424 form, the ED 524 form or the budget justifications goes over the maximum amount for any year (direct and indirect costs). A detailed budget narrative is needed for the total grant period years requested. By requesting detailed budget information in the initial application for the total project period, the need for formal non-competing continuation applications in the remaining years will be eliminated. A performance report that will be required annually will be used in place of the continuation application to determine progress. Definitions for the most inquired about budget categories:

Equipment – Tangible, non-expendable personal property having a useful life of more than one year and an acquisition cost of \$5,000 or more per unit. However, consistent with institutional policy, lower limits may be established.

Supplies – Direct materials and supplies that are consumable, expendable and a relatively low unit cost (under \$5,000).

Key Personnel - The personnel category of the budget includes **all** project staff members who are employees of the applicant. However, **KEY PERSONNEL** are defined as the Project Director(s), Principle Investigator(s), and Project Coordinator.

Other - Where applicants may place all direct costs that are not clearly covered by the other direct cost categories. It is a catch-all category that could include a wide variety of costs that do not seem to "fit" elsewhere in the budget.

12. Human Subjects: Remember to include a seven-point narrative on the protection of Human Subjects as it pertains to your grant if you check "yes" on ED 424 block number 13 or ED Supplemental block number 3. You must include a separate narrative for each site where the research is being conducted. If you check "no" please include a paragraph of why it is not required.

13. **Only the primary institution fills out the required forms.** Any partner or collaborating groups will be a subcontractor to the primary. The only paperwork subcontractor needs to fill out is what is required by the primary institution. You should include a letter of intent in the application from any collaborating group saying that if awarded what they will be doing for your project and for what amount.

Abstract/Narrative/Appendices

14. Abstract: The ONE-PAGE abstract should be a comprehensive description of what the whole (all 5 years) project is, not a description of the competency of the institution or project director. It is not an executive summary. It can be single or double-spaced.

15. Organize your narrative in accordance with the selection criterion in SECTION E of this package. Address all criteria. Include a table of contents in your application in order to highlight where the selection criteria can be found in the application.

16. Number all pages to make it easier for the reader to refer to a page number if comments are given (including the appendices).

17. Page numbers limitations: We strongly suggest that you keep the narrative to 75 pages, double-spaced. Not included in these pages are the forms, the abstract, the budget narrative/justification or the information on human subjects.

18. Vitae: Remember to include pertinent information in your narrative of the qualifications of the key personnel. A more extensive 2-4 page vitae can be included in the appendices

19. Advisory Board: We suggest that you limit your list of advisory board members in the application. You can give a description of the type/qualification of the person. Remember that an extensive listing of proposed names effects our peer reviewer selection.

20. Letters of Commitment/Support: If you have identified a partner, sub-contractor or consultant you should include a letter of commitment from them stating what they'll be doing on your project. We suggest that you only include key letters of support. Remember that letters of support diminish our peer reviewer pool.

Closing Date/Transmittal of Application

16. Application must be postmarked by the closing date of **Tuesday, September 13, 2005**. If sending by courier service (i.e., FED EX, UPS, etc. are commercial carriers that need to mail to the Landover address. Couriers can hand carry to ACC, not commercial carriers Fed X, UPS, Postal Express), please hand deliver between 8:00 a.m. and 4:30 p.m., to the following address: U.S. Department of Education, Application Control Center, **550 12th Street, SW, PCP - Room 7041**, Washington, D.C. 20202. The phone number for ACC to list for express mail is (202) 245-6288.

21. Electronic copies (soft copy) of your application should not be emailed to the Department, if submitting electronically. If you are submitting by mail, you can include an electronic copy (disk) with your application.

GRANTS.GOV

22. **We strongly suggest:** (1) Read the instructions carefully; (2) Don't wait until close to the due date to set up your account - 3 day turn around time for set up; (3) Print out the application before sending final version to ensure that all information has been uploaded correctly and completely; (4) If you need to send your appendices by paper read the section below in Appendices; (5) Keep the original Federal Assistance Face page, if you are a successful applicant, we will be asking you to send in the signed forms.

23. Electronic applications must be fully uploaded on Grants.gov **by 4:30 pm**, Washington, D.C. time on the closing date. For additional information on electronic submission procedures, see the section I.

24. The application information will be uploaded in four areas: ED Abstract Form; Budget Narrative Attachment Form; Program Narrative Attachment Form; and Other Narrative Attachment Form. The ED Abstract Form is for the abstract. The Budget Narrative Attachment Form is for the budget justification. The Program Narrative Attachment Form is for the application narrative based on the selection criteria – this section has the 75 page limit recommendation. The Other Narrative Attachment Form will include vitas; letters, and any other appendices.

25. **UNSUBMIT:** Please note that Grants.gov does not allow you to unsubmit your application if you find an error before the due date and time. You will have to submit another “new” application and notify NIDRR that you have submitted two applications and which one is the “correct” one to review.

28. Rehabilitation Act: To find information on the Rehab Act of 1973, as amended, as well as other NIDRR policy & legislation, go to: <http://www.ed.gov/about/offices/list/osers/nidrr/policy.html>

30. Help in Preparing Applications. We are happy to provide general program information. Clearly it would not be appropriate for staff to participate in the actual writing of an application, but we can respond to specific questions about our application requirements and evaluation criteria, or about the announced priorities. Applicants should understand that such previous contact is not required, nor does it guarantee the success of an application.

31. Possibility Of Learning The Outcome Of Review Panels Prior To Official Notification. Every year we are called by a number of applicants who have legitimate reasons for needing to know the outcome of the review prior to official notification. Some applicants need to make job decisions, some need to notify a partner, etc. Regardless of the reason, we cannot share information about the review with anyone until the Assistant Secretary has approved a slate of projects recommended for funding. You will be notified as quickly as possible either by telephone (if your application is recommended for funding), or through a letter (if your application is not successful).

32. Return of Non-Funded Applications. We do not return original copies of applications. Thus, applicants should retain at least one copy of the application. Copies of reviewer comments will be mailed to all applicants.

33. Successful Applications And Estimated/Projected Budget Amounts In Subsequent Years. There is a maximum award amount specified for the priority/competitions included in this package. The Department rejects and does not consider an application that proposes a budget exceeding the maximum amount for any single budget period of 12 months for the priorities included in this package. Since the yearly budgets for multi-year projects will be negotiated at the time of the initial award, applicants must include detailed budgets for each year of their proposed project. Generally, out-year funding levels most likely will not exceed 1st year budgets. However, budget modifications during the negotiation process, the findings from the previous year, or needed changes in the study design can affect your budget requirements in subsequent years, but in no case will out-year budgets exceed the maximum award amount.

34. Difference Between a Cooperative Agreement and a Grant. A cooperative agreement is similar to a grant in that its principal purpose is to accomplish a public purpose of support or stimulation as authorized by a Federal statute. It differs from a grant in the sense that in a cooperative agreement substantial involvement is anticipated between the executive agency (in this case the Department of Education) and the recipient during the performance of the contemplated activity.

DUNS Number Instructions

D-U-N-S No.: Please provide the applicant's D-U-N-S Number. You can obtain your D-U-N-S Number at no charge by calling **1-800-333-0505** or by completing a D-U-N-S Number Request Form. The form can be obtained via the Internet at the following URL:

http://www.dnb.com/US/duns_update/index.html

The D-U-N-S Number is a unique nine-digit number that does not convey any information about the recipient. A built in check digit helps assure the accuracy of the D-U-N-S Number. The ninth digit of each number is the check digit, which is mathematically related to the other digits. It lets computer systems determine if a D-U-N-S Number has been entered correctly.

Dun & Bradstreet, a global information services provider, has assigned D-U-N-S numbers to over 43 million companies worldwide. **Live help Monday-Friday 8am-6pm (EST) Dial 1.888.814.1435**

SECTION J

Part IV - Assurances, Certifications and Disclosures

Each submitted application should include an index or table of contents and a one-page project abstract. Pages should be consecutively numbered.

1. Project Director. Name, address, telephone and fax numbers, and e-mail address of the person to be contacted on matters involving this application.

2. Novice Applicant. Check “Yes” or “No” only if assistance is being requested under a program that gives special consideration to novice applicants. Otherwise, **leave blank.**

Check “Yes” if you meet the requirements for novice applicants specified in the regulations in 34 CFR 75.225 and included on the attached page entitled “Definitions for Department of Education Supplemental Information for SF 424.” By checking “Yes” the applicant certifies that it meets these novice applicant requirements. Check “No” if you do not meet the requirements for novice applicants.

DEFINITIONS FOR DEPARTMENT OF EDUCATION SUPPLEMENTAL INFORMATION FOR SF 424

(Attachment to Instructions for Supplemental Information for SF 424)

Definitions:

Novice Applicant (See 34 CFR 75.225). For discretionary grant programs under which the Secretary gives special consideration to novice applications, a novice applicant means any applicant for a grant from ED that—

- Has never received a grant or subgrant under the program from which it seeks funding;
- Has never been a member of a group application, submitted in accordance with 34 CFR 75.127-75.129, that received a grant under the program from which it seeks funding; and
- Has not had an active discretionary grant from the Federal government in the five years before the deadline date for applications under the program. For the purposes of this requirement, a grant is active until the end of the grant's project or funding period, including any extensions of those periods that extend the grantee's authority to obligate funds.

In the case of a group application submitted in accordance with 34 CFR 75.127-75.129, a group includes only parties that meet the requirements listed above.

PROTECTION OF HUMAN SUBJECTS IN RESEARCH

I. Definitions and Exemptions

A. Definitions.

A research activity involves human subjects if the activity is research, as defined in the Department's regulations, and the research activity will involve use of human subjects, as defined in the regulations.

—Research

The ED Regulations for the Protection of Human Subjects, Title 34, Code of Federal Regulations, Part 97, define research as “a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge.” *If an activity follows a deliberate plan whose purpose is to develop or contribute to generalizable knowledge it is research.* Activities which meet this definition constitute research whether or not they are conducted or supported under a program that is considered research for other purposes. For example, some demonstration and service programs may include research activities.

—Human Subject

The regulations define human subject as “a living individual about whom an investigator (whether professional or student) conducting research obtains (1) data through intervention or interaction with the individual, or (2) identifiable private information.” *(1) If an activity involves obtaining information about a living person by manipulating that person or that person's environment, as might occur when a new instructional technique is tested, or by communicating or interacting with the individual, as occurs with surveys and interviews, the definition of human subject is met. (2) If an activity involves obtaining private information about a living person in such a way that the information can be linked to that individual (the identity of the subject is or may be readily determined by the investigator or associated with the information), the definition of human subject is met.* [Private information includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an individual and which the individual can reasonably expect will not be made public (for example, a school health record).]

B. Exemptions.

Research activities in which the **only** involvement of human subjects will be in one or more of the following six categories of **exemptions** are not covered by the regulations:

(1) Research conducted in established or commonly accepted educational settings, involving normal educational practices, such as (a) research on regular and special education instructional strategies, or (b) research on the effectiveness of or the comparison among instructional techniques, curricula, or classroom management methods.

(2) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior, unless: (a) information obtained is recorded in such a manner that human subjects can be identified, directly or through identifiers linked to the subjects; and (b) any disclosure of the human subjects' responses outside the research could reasonably place the subjects at risk of criminal or civil liability or be damaging to the subjects' financial standing, employability, or reputation. ***If the subjects are children, exemption 2 applies only to research involving educational tests and observations of public behavior when the investigator(s) do not participate in the activities being observed. Exemption 2 does not apply if children are surveyed or interviewed or if the research involves observation of public behavior and the investigator(s) participate in the activities being observed.*** [Children are defined as persons who have not attained the

legal age for consent to treatments or procedures involved in the research, under the applicable law or jurisdiction in which the research will be conducted.]

(3) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior that is not exempt under section (2) above, if the human subjects are elected or appointed public officials or candidates for public office; or federal statute(s) require(s) without exception that the confidentiality of the personally identifiable information will be maintained throughout the research and thereafter.

(4) Research involving the collection or study of existing data, documents, records, pathological specimens, or diagnostic specimens, if these sources are publicly available or if the information is recorded by the investigator in a manner that subjects cannot be identified, directly or through identifiers linked to the subjects.

(5) Research and demonstration projects which are conducted by or subject to the approval of department or agency heads, and which are designed to study, evaluate, or otherwise examine: (a) public benefit or service programs; (b) procedures for obtaining benefits or services under those programs; (c) possible changes in or alternatives to those programs or procedures; or (d) possible changes in methods or levels of payment for benefits or services under those programs.

(6) Taste and food quality evaluation and consumer acceptance studies, (a) if wholesome foods without additives are consumed or (b) if a food is consumed that contains a food ingredient at or below the level and for a use found to be safe, or agricultural chemical or environmental contaminant at or below the level found to be safe, by the Food and Drug Administration or approved by the Environmental Protection Agency or the Food Safety and Inspection Service of the U.S. Department of Agriculture.

II. Instructions for Exempt and Nonexempt Human Subjects Research Narratives

If the applicant marked “Yes” for Item 3 of Department of Education Supplemental Information for SF 424, the applicant must provide a human subjects “exempt research” or “nonexempt research” narrative. Insert the narrative(s) in the space provided. If you have multiple projects and need to provide more than one narrative, be sure to label each set of responses as to the project they address.

A. Exempt Research Narrative.

If you marked “Yes” for item 3 a. and designated exemption numbers(s), provide the “exempt research” narrative. The narrative must contain sufficient information about the involvement of human subjects in the proposed research to allow a determination by ED that the designated exemption(s) are appropriate. The narrative must be succinct.

B. Nonexempt Research Narrative.

If you marked “No” for item 3 a. you must provide the “nonexempt research” narrative. The narrative must address the following seven points. Although no specific page limitation applies to this section of the application, be succinct.

(1) Human Subjects Involvement and Characteristics:

Provide a detailed description of the proposed involvement of human subjects. Describe the characteristics of the subject population, including their anticipated number, age range, and health status. Identify the criteria for inclusion or exclusion of any subpopulation. Explain the rationale for the involvement of special classes of subjects, such as children, children with disabilities, adults with disabilities, persons with mental disabilities, pregnant women, prisoners, institutionalized individuals, or others who are likely to be vulnerable

(2) Sources of Materials: Identify the sources of research material obtained from individually identifiable living human subjects in the form of specimens, records, or data. Indicate whether the material or data will be obtained specifically for research purposes or whether use will be made of existing specimens, records, or data.

(3) Recruitment and Informed Consent: Describe plans for the recruitment of subjects and the consent procedures to be followed. Include the circumstances under which consent will be sought and obtained, who will seek it, the nature of the information to be provided to prospective subjects, and the method of documenting consent. State if the Institutional Review Board (IRB) has authorized a modification or waiver of the elements of consent or the requirement for documentation of consent.

(4) Potential Risks: Describe potential risks (physical, psychological, social, legal, or other) and assess their likelihood and seriousness. Where appropriate, describe alternative treatments and procedures that might be advantageous to the subjects.

(5) Protection Against Risk: Describe the procedures for protecting against or minimizing potential risks, including risks to confidentiality, and assess their likely effectiveness. Where appropriate, discuss provisions for ensuring necessary medical or professional intervention in the event of adverse effects to the subjects. Also, where appropriate, describe the provisions for monitoring the data collected to ensure the safety of the subjects.

(6) Importance of the Knowledge to be Gained: Discuss the importance of the knowledge gained or to be gained as a result of the proposed research. Discuss why the risks to subjects are reasonable in relation to the anticipated benefits to subjects and in relation to the importance of the knowledge that may reasonably be expected to result.

(7) Collaborating Site(s): If research involving human subjects will take place at collaborating site(s) or other performance site(s), name the sites and briefly describe their involvement or role in the research.

Copies of the Department of Education's Regulations for the Protection of Human Subjects, 34 CFR Part 97 and other pertinent materials on the protection of human subjects in research are available from the Grants Policy and Oversight Staff, Office of the Chief Financial Officer, U.S. Department of Education, Washington, D.C. 20202-4250, telephone: (202) 245-6120, and on the U.S. Department of Education's

In addition, indicate whether ED or another Federal agency (Other) issued the approved agreement. If you check “Other,” specify the name of the Federal agency that issued the approved agreement. (3): If you are applying for a grant under a Restricted Rate Program (34 CFR 75.563 or 76.563), indicate whether you are using a restricted indirect cost rate that is included on your approved Indirect Cost Rate Agreement or whether you are using a restricted indirect cost rate that complies with 34 CFR 76.564(c)(2). Section C - Budget Narrative [Attach separate sheet(s)]
Pay attention to applicable program specific instructions,
if attached.

1. Provide an itemized budget breakdown, and justification by project year, for each budget category listed in Sections A and B. For grant projects that will be divided into two or more separately budgeted major activities or sub-projects, show for each budget category of a project year the breakdown of the specific expenses attributable to each sub-project or activity.
2. If applicable to this program, provide the rate and base on which fringe benefits are calculated.
3. If you are requesting reimbursement for indirect costs on line 10, this information is to be completed by your Business Office. Specify the estimated amount of the base to which the indirect cost rate is applied and the total indirect expense. Depending on the grant program to which you are applying and/or your approved Indirect Cost Rate Agreement, some direct cost budget categories in your grant application budget may not be included in the base and multiplied by your indirect cost rate. For example, you must multiply the indirect cost rates of "Training grants" (34 CFR 75.562) and grants under programs with "Supplement not Supplant" requirements ("Restricted Rate" programs) by a "modified total direct cost" (MTDC) base (34 CFR 75.563 or 76.563). Please indicate which costs are included and which costs are excluded from the base to which the indirect cost rate is applied.

When calculating indirect costs (line 10) for "Training grants" or grants under "Restricted Rate" programs, you must refer to the information and examples on ED's website at:
